Discover Technologies Achieves Microsoft Gold Partner Status

Discover Technologies Earns Microsoft's Gold Search Vendor Competency

WASHINGTON, June 28, 2012 /PRNewswire/ -- Discover Technologies, LLC a leader in enterprise search solutions, announced today that they have attained the prestigious Gold Search Competency status in the Microsoft Certified Partner Program. In order to become a Microsoft Gold Partner, Discover Technologies proved their ability to go above and beyond to meet all customers' needs through the responses in the Customer Satisfaction Surveys, required by Microsoft. Discover Technologies has also shown their expertise by completing the necessary product certification tests.

"Those organizations who are a part of the Microsoft Certified Partner Program are amongst an elite group, and Discover Technologies' is proud to be a part of it," Bruce Stover, Discover Technologies' CMO.

Discover Technologies will receive benefits from Microsoft including additional support and resources only available to those who have achieved the Gold Status.
